Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR §§1.56, 1.97 and 1.98, the attention of the U.S. Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08 forms.

On October 18, 2011, a final Office Action was issued in this application rejecting all of the pending claims. This Information Disclosure Statement is being filed after the mailing date of a final action under 37 C.F.R. § 1.113 and is presently not in compliance with 37 C.F.R. § 1.97. However, all of the outstanding rejections of the final Office Action have been resolved since the mailing of the final Office Action. Applicant is submitting, concurrent with this submission, a request for reconsideration of the rejections in the final Office Action. In the event the final Office Action is withdrawn and prosecution of this application is reopened, the present Information Disclosure Statement would at that time be in compliance of § 1.97. The Examiner is respectfully requested to consider at that time this Information Disclosure Statement, and the references listed herein be made of record in this application and appear among the "References Cited" on any patent to issue therefrom.

The fee pursuant to 37 C.F.R. § 1.17(p) is being submitted herewith.

Whether or not the information and references disclosed in this Information Disclosure Statement is "material" pursuant to 37 CFR §1.56, this submission is not intended to constitute an admission that any patent, publication or other information referred to therein is "prior art".

In accordance with 37 CFR §1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR §1.56(a) exists.

Applicant respectfully would like to draw the attention of the Examiner to the following related applications for claimed inventions of similar subject matter and disclosures corresponding to the disclosure of this application.
